Project Name	Gas leakage monitoring and alerting system for industries

Create A Database In Cloudant DB.

Aim: To create a database in Cloudant DB to store location data.
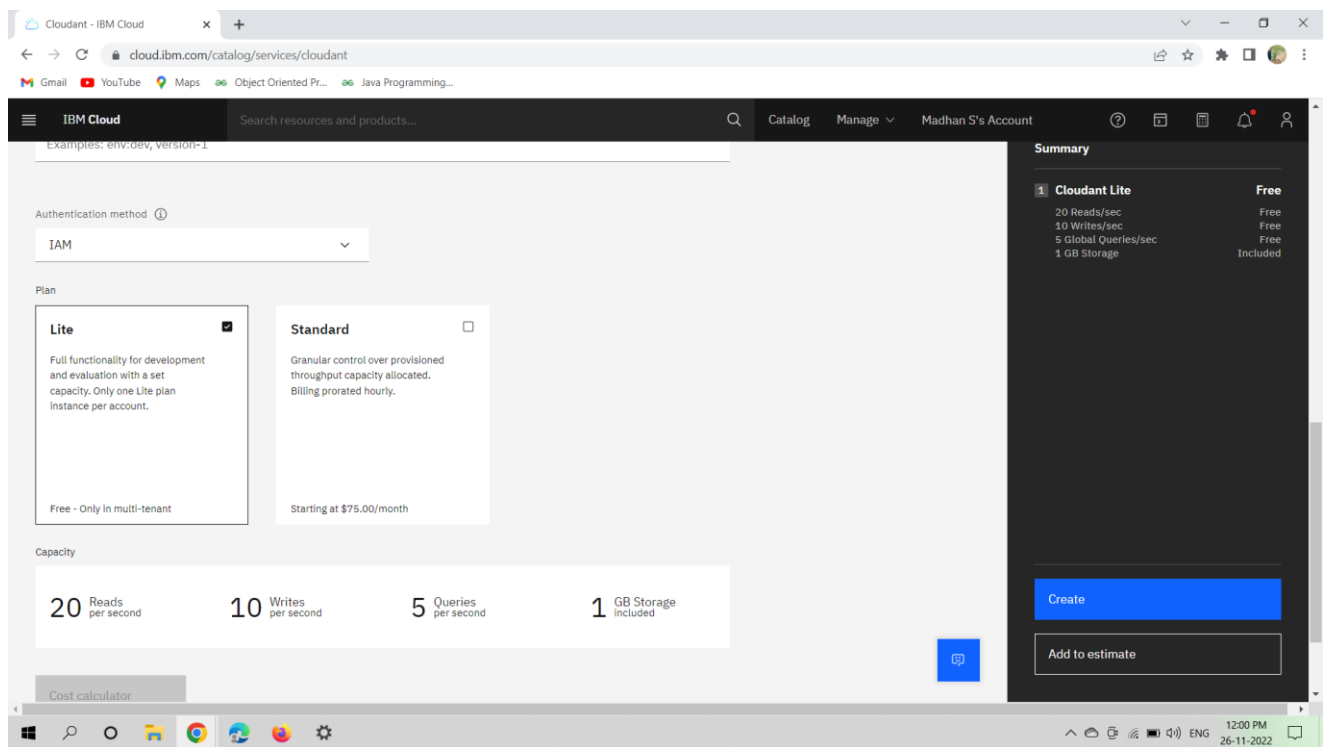

Steps followed:

- Logged in to IBM Cloud account.

- Searched for "Cloudant".

- Chose the "Lite Version" and clicked on "Create".

● The Cloudant database resource was created successfully

● Clicked on Launch Dashboard

Databases				Database name ▾	Create Database	{ } JSON
